This may initially cause some concern for patients, but it's intended to protect them from health risks and added costs.</p> <p>A specific list of services requiring a PA is available at the following locations:</p> <ul style="list-style-type: none"> • https://www.aetna.com/health-careprofessionals/precertification/precertification-lists.html • Schedule of Cost Sharing included in the patient's Evidence of Coverage (EOC) 	

- ¹ For further details, refer to the Summary Plan Description and Evidence of Coverage (EOC) documents.
- ² This is the amount you have to pay out of pocket before the plan will pay its share for your covered Medicare Part A and B services.
- ³ A benefit period begins the day you go into a hospital or skilled nursing facility. The benefit period ends when you haven't received any inpatient hospital care or skilled care in a skilled nursing facility for 60 days in a row. If you go into a hospital or skilled nursing facility after one benefit period has ended, a new benefit period begins. There is no limit to the number of benefit periods.
- ⁴ You pay \$0 once you reach the OOP maximum or \$7,400 in true out-of-pocket costs, whichever is reached first.
- ⁵ You enter the coverage gap after reaching the ICL until you reach \$7,400 in true out-of-pocket prescription drug expenses. Oxy provides additional coverage during the coverage gap stage for covered drugs. In general, this means you continue to pay the same amount for covered drugs throughout the coverage gap of the Plan as you paid in the initial coverage stage.
